

# Envision Energy Denmark Invites to Opening Reception

Envision Energy Denmark would like to invite you to the inauguration of our new premises in Silkeborg followed by a networking reception.

The event will take place:

31<sup>st</sup> of May 2018, 15:00 to 18:00  
**Inauguration ceremony at 15:30**  
Randersvej 2A, 8600 Silkeborg

Since 2010, Envision has had a Global Innovation Centre (GIC) for wind turbine technology in Silkeborg, Denmark. However, a steady growth rate has meant that we outgrew our old location and have now moved to new premises. This new, inspiring environment, we would like to celebrate with you.

The afternoon will begin with an official opening session and cutting of the red ribbon. Afterwards, there will be a networking reception. A technology session with the theme "Innovation in the making" will also take place in the afternoon, running in parallel with the networking reception.

**Registration will start at 15:00 and will be accompanied by a glass of champagne.**

Please note:

Registration ends by the 25<sup>th</sup> of May! Please respond to [pernille.bruun@envisionenergy.dk](mailto:pernille.bruun@envisionenergy.dk)

We hope to see you at this festive day.
